

# SteelStrip

Always check and read carefully the Material Safety Data Sheet before use.

USES: APW SteelStrip-535 is an alkaline biodegradable detergent. It is for use in parts washers or dip tanks to clean light/heavy duty iron and steel. 535 is designed to only work on iron, steel and stainless steel. It is a non-chlorine, non-abrasive cleaner to clean up greases, oils, carbonaceous soils, and other difficult cleaning applications. 535 cleans off salts that can pit the surfaces of the iron and steel. 535 does not leave discoloration or corrosion. 535 is also works as a paint stripper on most paint stripping applications. It is loaded with rust inhibitors, alkaline builders and surfactants. 535 helps prevent build-up in the lines of equipment. It's sustained cleaning power makes it very economical. 535 also contains Furfuryl alcohol, EDTA, Sodium Metasilicate.

## ENVIRONMENTALLY FRIENDLY !!

### FIRST AID:

**EYES:** Allow streaming water to flow over the face while blinking both eyes for optimum irrigation for 15 minutes. Get medical attention immediately.

**SKIN:** Wash thoroughly with water. Get medical attention if irritation persists.

**INTERNAL:** Do NOT induce vomiting. Get medical attention immediately

**CAUTION:** Use in a well ventilated area. Can cause eye burns. If swallowed APW SteelStrip-535 can be harmful. Use full safety equipment for hands, eyes, & skin when using 535.

### DIRECTIONS:

Heavy: 1 part 535 to 5-10 parts water

Medium: 1 part 535 to 20-30 parts water

Light: 1 part 535 to 40-50 parts water

APW SteelStrip-535 works best in water

temperatures of 100-170 Degrees Fahrenheit. For

extreme cleaning or paint stripping use undiluted.

Rinse surfaces thoroughly after cleaning with cool, clear, soft water.

VOC Content: < 1 gram per liter

### HMIS:

Health = 2

Flammability = 0

Reactivity = 0
