

# HOUSE & SIDING PRESSURE WASHER CONCENTRATE

## TECHNICAL DATA

### DESCRIPTION

*Recommended uses:*

#### HOUSE & SIDING

The proprietary formulation of HOUSE & SIDING contains "SPOREX", a unique additive which removes tough stains from mildew, mold, algae, fungus and moss and leaves the surface completely clean. In addition, special surfactants penetrate the surface to safely and easily dissolve the toughest stains from dirt, oil grease, bird droppings, tree sap, and acid rain. Even removes gray weathering on wood, chalking, and oxidation.

**SAFE, FAST, EFFECTIVE ON MOST SURFACES!**  
Recommended for exterior siding (wood, vinyl, aluminum), roofing of all types (asphalt shingles, fiberglass shingles, cedar, tile), gutters, stucco, brick and cement block, masonry, walkways & walls.

**COVERAGE:** When mixed (1:10) with water, one bottle of concentrate will make 11 gallons of premix, and clean up to 2,000 sq. ft. (less on rougher surfaces), and can be applied by pressure washer, pump up sprayer, brush or roller. Contains anti-corrosive agents to safeguard pressure washer part (bleach can erode O-rings).

### TECHNICAL DATA

*Physical Data:*

**CONTAINS:** A proprietary blend of biodegradable surfactants, detergents, and emulsifiers, in a water-based solution. No petroleum solvents.

**FLASH POINT:** N/A

**SHELF LIFE:** N/A

**VOC:** 1

### APPLICATION

*Directions for use:*

#### PRESSURE WASHER APPLICATION

1. Rinse surrounding plants with water, before and after application.
1. Wet the surface to be cleaned, prior to applying the product.
2. Place detergent application siphon tube and screen filter directly into container. Open meter valve (if applicable) for maximum product flow. For reservoir machines, pour product (full strength) into pressure washer.
3. Spray at low pressure onto a wet surface.
4. On vertical surfaces, always spray from the top down.
5. Allow product to remain on the surface for 3 to 5 minutes to penetrate. Do not allow product to dry on surface.
6. Remove siphon tube from solution and rinse surface with high pressure spray thoroughly.
7. Flush siphon tube with clean water prior to storage.

**IMPORTANT:** Read entire label before use.

- When using a pressure washer to clean painted surfaces, please be aware that water pressure alone may remove paint, or highlight existing discoloration caused by the sun's UV rays.
- From the garden hose, rinse any nearby plants with clean water.
- Always test on an inconspicuous area first.
- Any overspray can be neutralized with large volumes of water.
- On extremely soiled or mildewed surfaces it may be necessary to scrub with a bristle brush, and a second application may be needed. Mildew may not be completely removed from porous surfaces.

- In case of severe oil and grease stains on porous surfaces, oil may bleed to the surface or leave a residual stain. Repeat applications may lighten stains, but not remove completely.

### CAUTION

Eye and skin irritant. In case of contact with eyes or skin, flush with water for 15 minutes. If irritation persists, seek medical attention. If swallowed, take large amounts of water. Do not induce vomiting. Get medical attention. Material Safety Data Sheet available.

**DO NOT MIX THIS PRODUCT WITH ANY OTHER CHEMICALS.**

**KEEP OUT OF REACH OF CHILDREN.**
